to bcc: me

Good morning!

We hope you are just as excited as we are about getting the school year started. This is my second email; let me know if you did not receive the first one. If you are receiving this email in error, please have patience with us as we transition all of our contacts to the new school year.

The first email highlighted information concerning Open House, the supply list, uniforms, and school policies. I know many of your questions may be regarding the COVID protocols for this school year.

COVID-19 Protocols Update

- Masks are no longer required.
- We will no longer perform screening at drop off each morning.
- Contact tracing will be conducted by DOH for each positive case.
- Desk dividers have been removed.
- Hand washing and social distancing will still be encouraged.
- Regular cleaning and disinfecting will continue.
- Students should continue to stay home when sick.
 - Students who come to school with COVID symptoms or develop symptoms at school *will still be sent home until symptoms subside (even with a negative test)*.
 - If a student becomes ill at school, but symptoms do not suggest COVID-19, the parent will be notified, and it will be determined whether the student should be sent home.
 - Students who vomit while at school or have a fever will be sent home regardless of any other factors.
 - When a student has regular allergies or something else that can present with symptoms similar to COVID, it is recommended that the parents work out a plan with their pediatrician to manage symptoms while at school. (See our policy on medications at school below).

Medications

Prescribed Medications - Students who must take prescribed medication at school must turn the medication into the office along with a dated note and instructions signed by the child's parent.

Over-the-Counter Medications - Over-the-counter medication, such as Tylenol, that has been provided by the parent/guardian will be stored in the school office and administered to a student with specific instructions provided.

Students are not to keep any form of medication on them personally in the classroom, purses, book bags, cubbies, etc.

It is my intention to use these emails as a chance to answer any questions you may have. If you don't see your question answered in this email, watch your inbox for future emails with more information. We are so excited to see you soon! Our business office is open every weekday from 7:30 - 3:30.

We are praying for a great year!
